Safe And Efficacious Use Of Immunotherapy Agents: Pharmacist-Driven Strategies To Improve Patient Outcomes

June 13, 2019 • 7:00 PM
Maggiano’s • 5333 Wisconsin Ave NW • Washington, DC 20015

FACULTY
Jacob K. Kettle, PharmD, BCOP
Oncology Clinical Pharmacy Specialist
Department of Pharmacy
University of Missouri Health Care
Columbia, Missouri

Faculty disclosures will be provided prior to the presentation.

EDUCATIONAL OBJECTIVES
• Examine the background and pharmacology of new and emerging checkpoint inhibitors, including their mechanisms of action.
• Recognize appropriate diagnostic assays for patient identification to optimize efficacy associated with checkpoint inhibitors.
• Construct a plan of action to incorporate immunotherapies and management of adverse events to enhance patient care.
