Immune Checkpoint Inhibitors:

Utilizing Telemedicine to Enhance the Management of Adverse Events Within Health-System Settings

November 19, 2020 • 6:00 PM ET

REGISTER HERE

https://globalmeet.webcasts.com/starthere.jsp?ei=1367636&tp_key=d22b1e49e2

EDUCATIONAL OBJECTIVES

At the completion of this activity, participants will be able to:

- Explain how mechanisms of action of immune checkpoint inhibitors (ICIs) relate to the pathophysiology and development of less common immune-related adverse events (irAEs)
- Illustrate the importance of biomarkers in predicting ICI efficacy and toxicity
- Compare the features of less common irAEs, including incidence, timing of appearance, and management strategies
- Identify methods by which telemedicine can overcome barriers to cancer care, specifically with regard to ICI therapy

Accreditation Statement

Pharmacy Times Continuing Education™ is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. This activity is approved for 1 contact hour (0.10 CEU) under the ACPE universal activity number 0290-0000-20-280-L05-P. The activity is available for CE credit on January 17, 2021.

FACULTY

Jocelyn E. Mohs, PharmD, BCOP

Pharmacy Supervisor
PGY-2 Oncology Pharmacy Residency Program
Director
Sanford Roger Maris Cancer Center Pharmacy
Fargo, North Dakota

Dr Mohs is currently the pharmacy supervisor at Sanford Roger Maris Cancer Center in Fargo, North Dakota. She also serves as the residency program director for the newly established PGY-2 Oncology Pharmacy Residency at Sanford Roger Maris Cancer Center.

Dr Mohs completed her Doctor of Pharmacy degree in 2008 at Creighton University in Omaha, Nebraska. She went on to complete a PGY-1 Pharmacy Practice Residency at the Minneapolis VA Medical Center in Minnesota and a PGY-2 Oncology Specialty Residency at the University of Minnesota Medical Center, Fairview in Minneapolis and Maple Grove, Minnesota. She became board certified in oncology pharmacy in 2011.

Dr Mohs has been active in several professional oncology and pharmacy organizations at both the state and national level, contributing to continuing education for oncology pharmacists, nurses, and practitioners.

Faculty disclosures will be provided prior to the presentation.

This activity is supported by an educational grant from Bristol Myers Squibb.

Target Audience: Health-system pharmacists

Type of Activity: Application

Fee: Free
